this amazing book after helping his mom through the stages of menopause. At age fifty, Suzanne Tabor, Dr. Tabor's mom was an absolute wreck.

Suzanne reached out for her son's assistance in combating this dilemma and insisted he help her. This wonderful new diet approach restored her energy, and relieved her menopause discomfort. Both Dr. Tabor and his beautiful mom promised that this amazing new diet is delicious and easy to maintain. The diet took seven years of research and many clinical studies. Dr. Tabor a graduate of a top medical school, The John Hopkins School of Medicine also holds numerous health patents in countries around the globe and has researched and found studies to confirm this medical discovery.
