

Smooth Synergy's Fanny Facial gets your bum beach ready! *Tone, de-blemish, massage and polish your most intimate asset*

(New York, NY) – Pull out your miniskirts and swimsuits, because the warm weather is back! In addition to preparing your face with special skincare treatments for the change in weather, spring clean your fanny with a facial that will leave your backside looking buff and toned.

Smooth Synergy cosmedical spa in New York City offers a '3-step' system for maintaining a perfectly polished derriere! To begin, the sensitive skin of the derriere is exfoliated with Smooth Synergy's Papaya Body Scrub. This enzyme scrub gently invigorates with Jojoba beads that polish the skin. The properties of the papaya help to dissolve surface debris, detoxify skin and clean pores.

Next, a microcurrent therapy is used on the skin to help alleviate any bumps or lumpy appearance through a series of positive and negative compressions. Cellulite develops from the build up of congestion around the cells, which prohibit toxins to be filtered out, thus trapping these substances and creating an unsightly appearance on the skin. The suction effect from the microcurrent treatment allows for the fluid surrounding the cells to move freely, relieving any blockages and congestion. This very rich and pampering experience delivers anti-inflammatory results and leaves the skin smoother and more toned.

As a finishing touch, the body is then given a uniquely organic spray tan using the SunFX system, to achieve that total bronze bombshell look. The SunFX system uses a unique combination of mineral salt bronzers and the approved cosmetic tanning agent DHA 20 to produce a truly natural looking tan. You'll be done and dry in around 5 – 10 minutes and experience an immediate natural looking tan that will continue to develop over the next 5 to 12 hours. This UV-less tanning product contains no alcohol, oils, perfumes or potentially harmful chemicals or preservatives, is all natural and completely odor free.

The entire fanny facial takes approximately one and a half hours and costs \$160.00. For a complete menu of services at Smooth Synergy, please visit the website at www.smoothsynergy.com
